

# CAUTION

**KEEP OUT OF REACH OF CHILDREN  
READ THE SAFETY DIRECTIONS BEFORE**

## **DRIFT** INDUSTRIAL & DOMESTIC INSECTICIDE

### ACTIVE CONSTITUENTS:

4g/L PYRETHRINS, 24g/L PIPERONYL BUTOXIDE  
SOLVENT: 813 g/L LIQUID HYDROCARBON

### GROUP 3A INSECTICIDE

*A ready-to-use fogging, misting or spraying insecticide for the control of a wide variety of insect pests in various situations as specified in the Directions For Use table.*

### DIRECTIONS FOR USE

**RESTRAINTS:** DO NOT mist in windy conditions  
DO NOT over apply to cause oily and slippery residues  
DO NOT use in buildings with fish tanks/aquariums.

SITUATION	PESTS	RATE	CRITICAL COMMENTS
Inside buildings	Weevils, flour moths, grain moths and other insect pests of stored food. Flies, vinegar flies, cockroaches, spiders and mites	1-2 litres per 1000 M <sup>3</sup>	Use through misting or fogging equipment. Keep doors and windows closed for 30 minutes. This technique cannot penetrate to kill insects inside the grain mass or other product where they may be breeding. Use regularly to kill emerging insects before they can re-infest or spread to other areas.
Outdoors	Adult mosquitoes, midges and flies	5- litres/ ha	Use through misting or fogging equipment

**NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER, CONTRARY TO THIS LABEL  
UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

### GENERAL INSTRUCTIONS:

**INSECTICIDE RESISTANCE** Some naturally occurring insect biotypes resistant to Drift and other Group 3 Insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if Drift or other Group 3 Insecticides are used repeatedly. The effectiveness of Drift on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, Pestech Australia Pty Ltd accepts no liability for any losses that may result from the failure of Drift to control resistant insects. Drift may be subject to specific resistant management strategies. For further information, contact your local supplier, Pestech Australia representative or local agricultural department agronomist.

**PRECAUTIONS:** Ensure fog droplets have settled before re-occupancy. Avoid contact with food, food utensils or places where food is prepared or stored. Before use, remove or cover all exposed foodstuffs. Cover all dishes and utensils and places where food is prepared or stored.

**APPLICATION:** This product is ready to use.

**PROTECTION OF LIVESTOCK:** Dangerous to bees. DO NOT spray any plants in flower while bees are foraging.

**PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:** Do not contaminate streams, rivers or waterways with chemical or used containers.

**STORAGE AND DISPOSAL:** KEEP OUT OF REACH OF CHILDREN. Store in the closed original container in a cool well ventilated area. DO NOT store for prolonged periods in direct sunlight. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If not available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

**SAFETY DIRECTIONS:** Repeated exposure may cause allergic disorders. Sensitive workers should use protective clothing. Avoid contact with the eyes and skin. Do NOT inhale vapour or spray mist. Wash hands after use.

**FIRST AID:** If poisoning occurs, contact a doctor or Poisons Information Centre 13 11 26. If swallowed, do NOT induce vomiting, give a glass of water.

**MATERIAL SAFETY DATA SHEET:** Additional information is listed in the Material Safety Data Sheet.
